

August 8, 2005

TO: Residents & Businesses on Granite, Rockingham, Henry, Tufts, Newton, Acorn, Magazine (Putnam to Granite), Pearl St (Putnam to Granite), Pearl Pl, Brookline St (Putnam to Granite), Hastings Sq, Chestnut St (Sidney to Brookline), and Putnam Ave (Sidney to Brookline)

RE: Granite Street Normal Traffic Pattern Restored

On Wednesday, August 10, 2005, the traffic pattern on Granite Street will be restored to its original condition. This means that:

- Granite Street will operate as a one-way street from Magazine Street toward Brookline Street.
- Vehicles will be able to take a right-hand turn from Granite Street onto Brookline Street (though construction will still be taking place on Brookline Street).
- Cars parked along Granite Street should be parked facing in the appropriate direction, given the return to the original traffic pattern.
- The #47 Bus will resume its regular route, and bus stops will return to their original locations.
- Traffic signage will be adjusted accordingly.

If you have any questions about Granite/Brookline St. work, please contact John McGillicuddy, MassHighway Resident Engineer at (617) 492-2736 or Judy Kavanagh, Community Relations Manager at (617) 498-4710.

Sincerely,

A handwritten signature in black ink, appearing to read 'Owen O'Riordan'.

Owen O'Riordan, P.E.
Assistant Commissioner of Engineering
City of Cambridge
